

**PERFORMANCE LINE FOR THE
AUDI B9 S4 & S5
COUPE/SPORTBACK**

THE FULL MONTY.

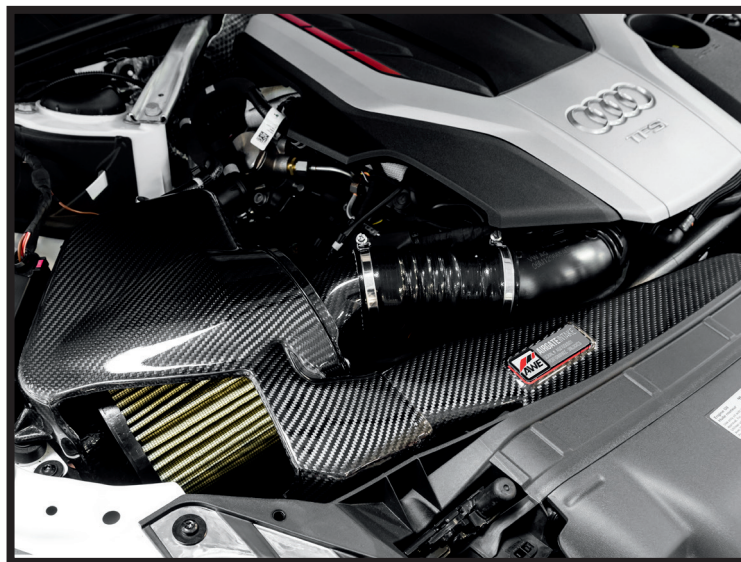

AIRGATE™ CARBON INTAKE

SKU: 2660-15032
AIRGATE™ CARBON INTAKE

The S-FLO Carbon Intake System is a complete replacement for the factory airbox that breaks the mold to offer a convertible design, unlocking intoxicating turbo spool as well as proven power gains delivered at the wheels.

AirGate™ mounts securely to the stock location integrating perfectly with factory ducting via the AirGate's floating airbox inlet.

COLDFRONT™ INTERCOOLER

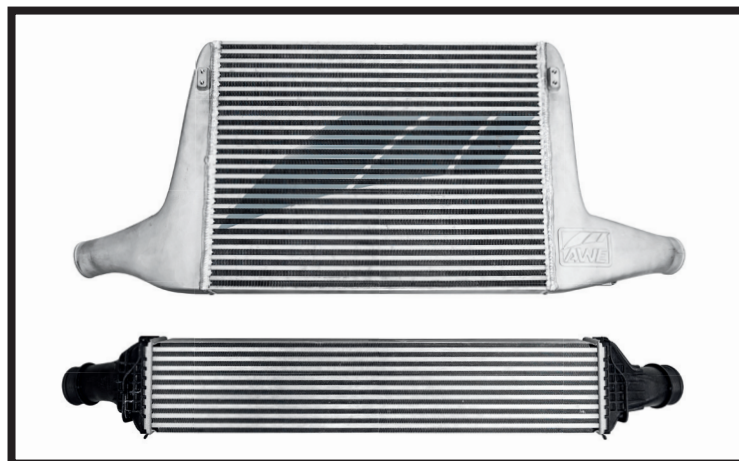

SKU: 4510-11060
COLDFRONT™ INTERCOOLER

Cast aluminum end tanks with internal baffling and a robust bar/plate aluminum core for maximum heat transfer render a 130% increase in frontal surface area and a massive 83% increase in volume over the factory B9 intercooler. No gimmicks, just results.

Regardless if your vehicle is producing higher-than-stock boost levels, or you're keeping it within factory spec, the ColdFront™ Intercooler solves any potential heat-related issues. By keeping intake air temperature low, and pressure drop at a minimum, engine output remains consistent even when outside temperatures rise. The ColdFront™ will provide the safety margin needed in order for you to push the limit with confidence.

THE AWE EXHAUST SUITE FOR THE AUDI B9 S4 & S5 COUPE/SPORTBACK

Perfect fitment, patented drone-canceling 180 Technology®, aggressive tip options, and a soundtrack only AWE can deliver, proudly engineered, designed, and manufactured in-house, in the USA. Presenting the Best Sounding Exhausts on the Planet™ for the Audi B9 S4 & S5 Coupe/Sportback.

TRACK EDITION
The Track Edition provides the most cost-effective aggression in the lineup.

TOURING EDITION
Smooth tone with no drone throughout the entire range, thanks to 180 Technology®.

SWITCHPATH™ EDITION
Two soundtracks, one package. Retains factory valve behavior or control via remote.

VALVES CLOSED // VALVES OPEN*

AWE's patented drone-canceling solution, 180 Technology®, is featured in every Touring Edition Exhaust.

Each variation of exhaust comes complete with post-catalyst downpipes to enable the 3.0T to breathe.

Sportback models feature a stamped merge to allow precision clearance of the undercarriage bracing.

The optional SwitchPath™ can be installed to bypass the factory behavior, allowing full control over your exhaust.

Chrome silver & diamond black tip options gives an extra level of aggression to the rear end of your B9.
