INSTALLATION INSTRUCTIONS

79-81 CAMARO VENT GAUGE PANEL

MODEL 5010 & 5011

2650-2156-77

These come as a single (5010) and a dual (5011) gauge panel.
The single panel can be mounted in the left or right vent opening, and can be mounted as recessed, or flush. The dual panel can only be mounted as recessed.

- Remove the original dash bezel. If this is a factory AC equipped vehicle, and the ducts are still in place, you will have to disconnect and move (or remove) the duct(s) out of the way. If this is a non-AC equipped vehicle, there will be no ducts to contend with.
- The original vents, or delete panels simply snap into place. You can use a small flat blade screw driver to release the upper and lower latch to remove the vent/ panel from the rear of the dash bezel.
- When installing the dual panel, you will notice an arrow between the gauge holes. The arrow indicates the top of the panel (installs with arrow pointing up), and the arrow is also on the back of the panel. The textured side of the panel is the front, facing out. Push the panel in from the rear until the "nubs" on the new panel line up with and engage into the factory holes where the vent/delete panel attached.
- When installing the single panel, you will notice two "pegs" sticking out. This panel can install with either side out. With the pegs at the back, gives more of a flush mount look. With the pegs forward, this positions the gauge back for a recessed look. The pegs are there to keep the panel from twisting/moving when it is installed for the recessed look.
- Once your panel is in place, you will slide the gauge in from the front, and use the normally included gauge bracket to hold it into place. It is normal tor the outside of the bezel on some Auto Meter gauges to rub on the sides of the dash bezel vent opening when installing the gauge into the new panel. No damage to the bezel or gauge will occur while pushing the gauge past this.
- Wire the gauge accordingly, and then re-install the dash bezel.

SERVICE

For service send your product to Auto Meter in a well packed shipping carton. Please include a note explaining what the problem is along with your phone number. If you are sending product back for Warranty adjustment, you must include a copy (or original) of your sales receipt from the place of purchase.

12 MONTH LIMITED WARRANTY

AutoMeter Products, Inc. warrants to the consumer that all AutoMeter High Performance products purchased from an Authorized AutoMeter Reseller will be free from defects in material and workmanship for a period of twelve (12) months from date of the original purchase. Products that fail within this 12 month warranty period will be repaired or replaced at AutoMeter's option, when determined by AutoMeter that the product failed due to defects in material or workmanship. This warranty is limited to the repair or replacement of parts in the AutoMeter High Performance product and the necessary labor done by AutoMeter to effect the repair or replacement of the AutoMeter High Performance product. In no event shall AutoMeter's cost to repair or replace an AutoMeter High Performance Product under this warranty exceed the original purchase price of the AutoMeter High Performance Product. Nor shall AutoMeter Products, Inc. be responsible for special, incidental or consequential damages or costs incurred due to the failure of an AutoMeter High Performance Product. This warranty applies only to the original purchaser of the AutoMeter High Performance Product and is non-transferable. This warranty also applies only to AutoMeter High Performance Products purchased from an Authorized AutoMeter Reseller. All implied warranties shall be limited in duration to the said 12 month warranty period. Breaking the instrument seal, improper use or installation, accident, water damage, abuse, unauthorized repairs or alterations voids this warranty. AutoMeter disclaims any liability for consequential damages due to the breach of any written or implied warranty on all products manufactured by AutoMeter Products, Inc. For a comprehensive listing of Un-Authorized AutoMeter Resellers please visit www.autometer.com/autometerlocator/index/unauthorized.
