

GEOMAX[®] FACTORY SPEC

FEATURES & BENEFITS

- 100% Factory level performance.
- The Factory Spec construction utilizes enhanced ply materials and a larger bead apex to improve tire feel and response, as well as increase sidewall support to handle extreme impacts.
- A proprietary rubber compound improves traction by reducing knob flex and increasing terrain penetration.
- An optimized single radius profile provides more predictable and consistent performance throughout the race as the track deteriorates.
- Limited Availability.
