- NO CEL GUARANTEED**

FOILER™ WIND DIFFUSER

SKU: 1110-11012
THE AWE FOILER™ WIND DIFFUSER
From the pioneers and creators of the Foiler™ Wind Diffuser comes the newest iteration for the GR Supra: a precision engineered solution for drastically reducing wind buffeting without introducing additional issues, such as wind whistle, when driving. No gimmicks, just results.

WHY DIFFUSE WIND, ANYWAY?

You know that sound that makes it feel like your head is going to implode when driving with one window down? That's called wind buffeting. It happens when you're moving fast, and it ruins the experience on the GR Supra. Instead of just letting our brains melt under the pressure of wind buffeting, we fixed it.

The Foiler™ Wind Diffuser boasts an elegant design that allows it to look as if it came on the Supra from the factory.

Easily installed via included die-cut adhesive, the Foiler™ features a recessed base to accommodate adhesive material thickness.

Proven to kill dreaded Supra "wind whistle" with windows up, and prevents painful, head-imploding wind buffeting with the windows down.

Stick it on and let 'er rip without worry.

THE AWE EXHAUST SUITE FOR THE TOYOTA GR SUPRA

TRACK EDITION
The Track Edition provides the most cost-effective aggression in the lineup.

NON-RESONATED TOURING EDITION
Smooth tone with no drone throughout the entire range, thanks to 180 Technology®.

RESONATED TOURING EDITION
Resonated Touring Edition Catbacks use bullet-style resonators to soften the edge.

AWE EXHAUSTS FOR THE 2020+ GR SUPRA

Perfect fitment, patented drone-canceling 180 Technology®, aggressive tip options, and a soundtrack only AWE can deliver, proudly engineered, designed, and manufactured in-house, in the USA. Presenting the Best Sounding Exhausts on the Planet™ for the GR Supra.

AWE's patented drone-canceling solution, 180 Technology®, is featured in every Touring Edition Exhaust.

Catbacks are configurable with resonated mid pipes for a more sophisticated exhaust note -- especially with an aftermarket DP.

Stamped stainless steel merge provides 65% more flow than stock and future proofs for downpipes.

Want to keep the rear of your Supra classy? Go chrome silver for a polarizing shine.

Massive 5" tips in diamond black give an extra level of aggression to the rear end of any Supra.
