BILSTEIN B8 8100

BILSTEIN B8 8100: BILSTEIN B8 8100 reservoir shock absorbers are a direct fit solution for lifted trucks and SUVs. Constructed from aerospace quality billet components, the large 2.65" shock body paired with a unique remote reservoir offers a higher oil volume capacity to control heat while tackling rough road surfaces over long distances. ZoneControl R technology eliminates harsh suspension top-out events and the need for an external limit strap. The DSA version also features fully adjustable high and low speed compression settings. Whether rugged trails or asphalt roads, the 8100's monotube design and 60mm piston with digressive valving offers consistent comfort and control so you can tame the terrain in style.

FEATURES & BENEFITS:

- 2.65" OD shock body and reservoir
- 60mm large bore digressive piston offers a greater range of tunability and delivers exceptional comfort without sacrificing control
- ZoneControl R technology eliminates harsh suspension top-out events and the need for an external limit strap by incorporating a double piston design offering 2 stages of rebound valving
- 8100 (ZoneControl R DSA) features fully adjustable high and low speed compression settings with click adjuster knobs to tailor your ride.
- Vehicle specific shock tuning provides an optimum ride and handling experience
- Direct fit for an easy installation
- 60mm remote reservoir with billet mount offers increased oil capacity for consistent performance over rough terrain
- 18mm piston rod provides brute tensile strength and reduces internal gas force ramp-up providing a smoother ride
- Billet rod end with vulcanized mounts for an exact OE fit and long-term durability
- Owner rebuildable and revalvable
- Made in the USA
- Limited 2-year warranty
