

FUSION SOCKS

The 2026 Fusion Sock is built for riders who demand both comfort and performance under their knee protection. Designed with a new silicone print in key registration zones, the sock delivers extra anti-migration support for knee braces and guards, ensuring a secure fit during the toughest rides. Its 4-way stretch Lycra construction offers a smooth, anti-chafing layer with moisture-wicking compression, while rear Lycra mesh panels enhance breathability and cooling.

- ▶ **SILICONE PRINT REGISTRATION ZONES** – Added anti-migration grip keeps braces and guards securely in place.
- ▶ **4-WAY STRETCH LYCRA CONSTRUCTION** – Provides compression, moisture management, and anti-chafing comfort.
- ▶ **REAR MESH VENTILATION** – Targeted Lycra mesh panels increase airflow and breathability.
- ▶ **REINFORCED HEEL & TOE** – Built for long-term durability against wear.
- ▶ **EXTENDED THIGH-LENGTH DESIGN** – Ensures full coverage and comfort under knee protection.
- ▶ **AVAILABLE SIZES:**
YOUTH, S/M, L/XL
