

WAY AHEAD.

BILSTEIN B8 8100.

BILSTEIN B8 8100 reservoir shock absorbers are a direct fit solution for lifted trucks and SUVs. Constructed from aerospace quality billet components, the large 60mm ID shock body, paired with a unique remote or piggyback reservoir, offers a higher oil volume capacity to control heat while tackling rough road surfaces over long distances. Whether rugged trails or asphalt roads, the 8100's monotube design and 60mm piston with digressive valving offers consistent comfort and control so you can tame the terrain in style.

Front

Rear

BILSTEIN B8 8100 NOW AVAILABLE FOR RAM 2500

Features & Benefits:

- 2.65" OD shock body and reservoir
- 60mm large bore digressive piston offers a greater range of tunability and delivers exceptional comfort without sacrificing control
- Direct fit for an easy installation
- Vehicle specific shock tuning provides an optimum ride and handling experience
- 60mm remote reservoir offers increased oil capacity for consistent performance over rough terrain
- Billet reservoir mount solution included with every damper
- Front shock features ZoneControl R technology which eliminates harsh suspension top-out events and the need for an external limit strap by incorporating a double piston design offering 2 stages of rebound valving
- 18mm piston rod provides brute tensile strength and reduces internal gas force ramp-up providing a smoother ride
- Billet rod end with vulcanized mounts for an exact OE fit and long-term durability
- Owner rebuildable and revalvable
- Made in the USA
- Limited 2-year warranty
