**PROTAPER® MICRO BAR KIT**

ProTaper has innovated a handlebar conversion kit that offers a reduced-diameter handgrip area, complete with a matching aluminum throttle tube and soft, 1/3 Waffle grips. With the Micro Handlebar Kit, youth riders can more fully and comfortably grip their handlebars, leading to improved control and drastically reduced hand fatigue. The advanced, abrupt handlebar taper maintains a traditional 7/8", allowing the use of stock handlebar mounts, lever controls, and switches. Includes all parts necessary to complete the conversion, making it simple to directly install onto any 2-stroke minibike up to 85cc.

- 7/8" tubing at the clamping area
- Reduced-diameter handgrip area, perfect for small hands
- Exclusive 2000 series T6 aluminum alloy handlebar construction
- Cold-forged aluminum crossbar
- CNC-machined 6061 aluminum crossbar clamps adhered with aerospace-quality polymer
- High-tech shot peened, stress-relieved, and anodized handlebar finish for unmatched durability
- Clutch side handlebar knurling provides maximum grip adhesion
- Chemically applied handlebar graphics are scratch- and peel-resistant
- Included Waffle Micro Grips are made using soft, synthetic rubber compound
- Includes 2-piece anodized, knurled T6 aluminum alloy Micro throttle tube with 7 optional cams
- Replacement parts available for individual purchase
- Crossbar pad included
