Fitment Note

Our Gravel Guards are a direct fit for the following aFe POWER Terra Guard Bumpers

- 79-27009
- 79-27012
- 79-27015
- 79-27016

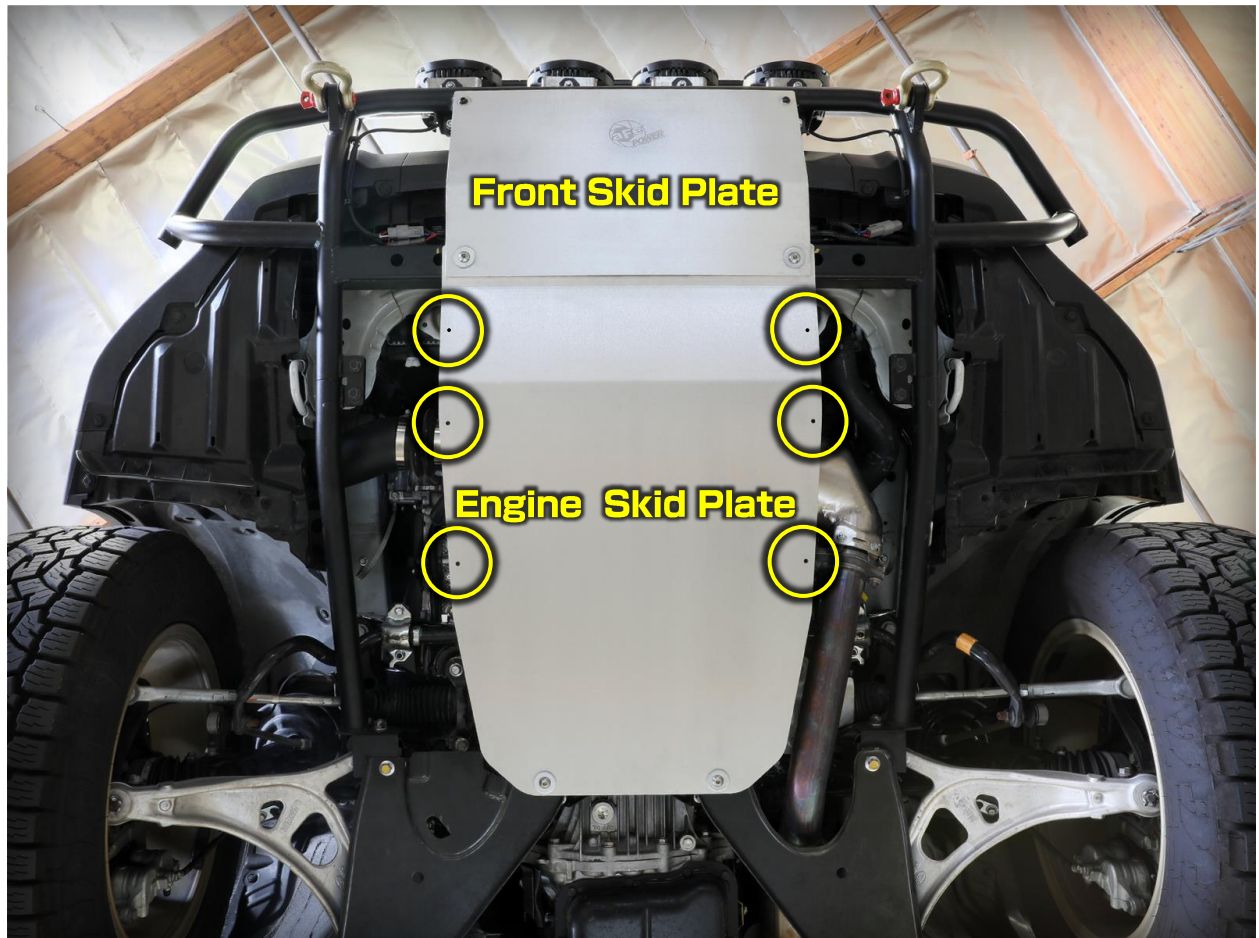

Requires Engine Skid Plate (**79C27020**). Not included

- Please read the entire instruction manual before proceeding.
- Ensure all components listed are present.
- For technical support please call 951-493-7185.
- Ensure you have all necessary tools before proceeding.
- Retain factory parts for future use.

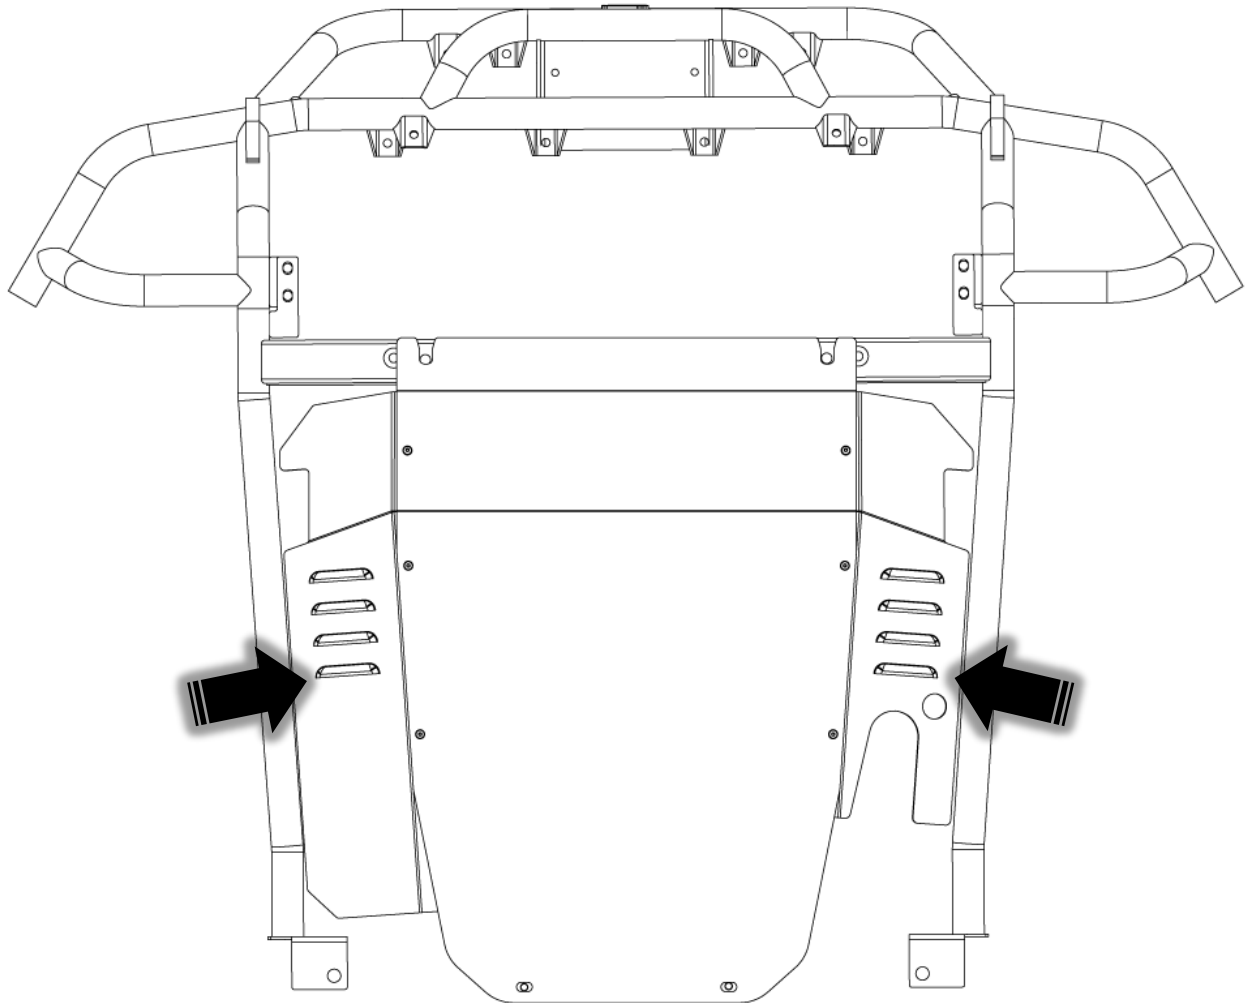

Procedure:

1. This engine skid plate is a direct fit for our aFe POWER Terra Guard bumpers for the 20+ Subaru Outback BT platform. This skid plate is only compatible with aFe bumpers. The aFe gravel guards must be installed with aFe engine skid plate (**79C27020**)
2. Lift the vehicle using floor ramps or a lift. Observe the layout of the (6) mounting holes.

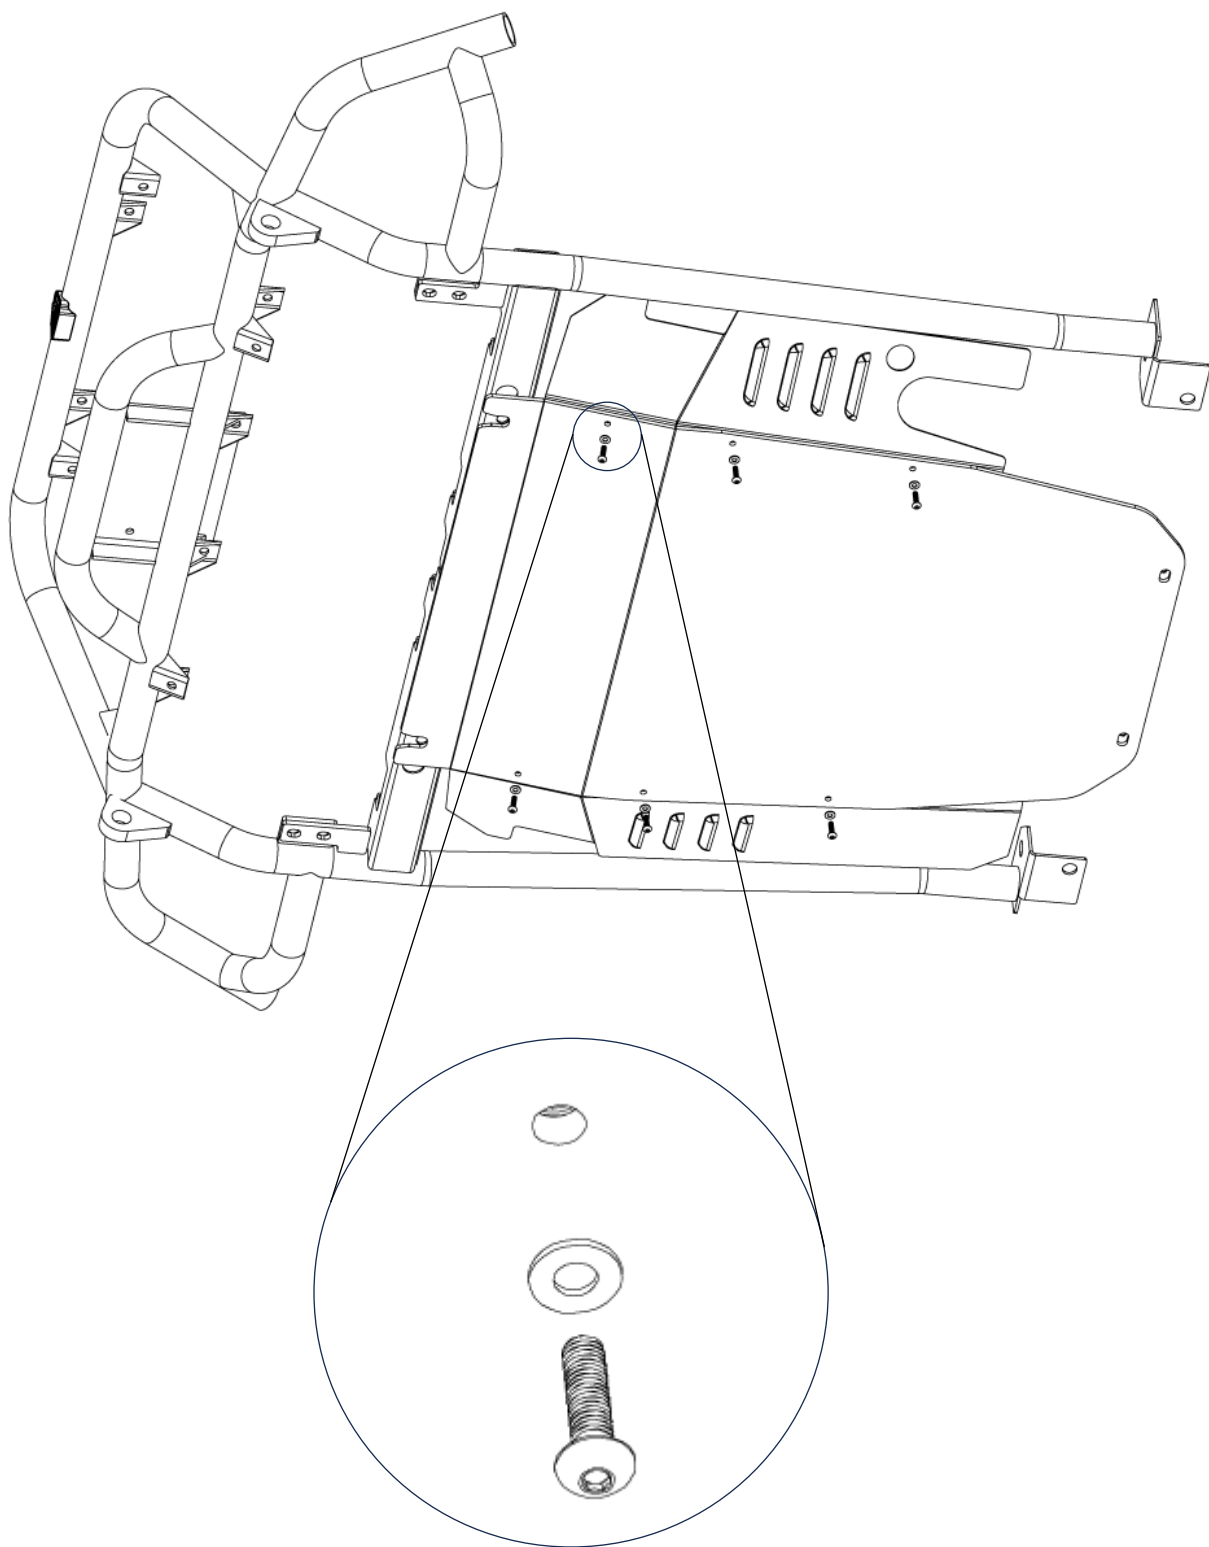

3. Install the gravel guards as shown below.

4. Install the included M5 screws and washers. Torque to **4 ft-lbs (48 in-lbs)**.

5. You finished with the installation.

Left intentionally blank.
