BILSTEIN B8 6112 / 6100

FOR '22+ TOYOTA TUNDRA & SEQUOIA

BILSTEIN B8 6112 / 6100

Bilstein B8 6100 shock absorbers are filled with technology perfected over three decades of off-road dominance. Bilstein's monotube gas pressure design, featuring a large 2.65" outer diameter body and 60mm digressive piston, maximizes heat dissipation for increased shock life and reduces oil foaming to maintain consistent performance—delivering a smoother ride and greater control over rough terrain. Built for increased durability, the B8 6100 is ideal for vehicles that tackle rugged roads and harsh conditions. For those looking to add ride height adjustability, the B8 6112 kit includes two B8 6100 shocks and two coil springs, offering the same proven performance benefits with added flexibility for front-end leveling or lift.

FEATURES & BENEFITS:

- Large 2.65" increased oil capacity, cooling, and long-term durability
- 60mm digressive piston improves ride comfort and control over rough terrain
- Vehicle specific tuning
- Monotube design ensures consistent, fade-free performance in all conditions
- **(B8 6112)** Kit includes (2) 60mm shock absorbers, (2) billet hard anodized spring seats, and (2) springs
- **(B8 6112)** Adjustable spring seat offers 0-3.7" of lift, depending on the application
- **(B8 6112)** Custom engineered cold wound linear springs for enhanced vehicle control and ride comfort
- Available for late model trucks and SUVs which utilize a front coilover suspension
- Made in the USA
