BILSTEIN B8 6112

2023+ GMC CANYON AND CHEVY COLORADO TRAIL BOSS

BILSTEIN B8 6112

Bilstein B8 6112 leveling kits are designed to provide more ground clearance, allow for larger tires, and increase wheel travel. Multiple snap-ring grooves in the body allow for different spring seat positions, providing 0-2.75 inches of front lift (depending on application). These kits consist of (2) 60mm shock absorbers combined with (2) custom matched cold wound coil springs and (2) billet aluminum spring seats. The large 2.65-in OD body and 60mm digressive piston allows for increased damping control for optimal on-road and off-road capabilities. Experience the legendary Bilstein off-road experience with the best direct fit spring and shock kit for your light truck or SUV. The B8 6112 kit pairs with B8 5160 remote reservoir shocks in the rear.

FEATURES & BENEFITS:

- Kit includes (2) 60mm shock absorbers, (2) billet hard anodized spring seats, and (2) springs
- Adjustable spring seat offers 0-3" of lift, depending on the application
- Custom engineered cold wound linear springs for enhanced vehicle control and ride comfort
- Available for late model trucks and SUVs which utilize a front coilover suspension
- Made in the USA
- Large 2.65" increased oil capacity, cooling, and long-term durability
- 60mm digressive piston improves ride comfort and control over rough terrain Vehicle specific tuning
- Monotube design ensures consistent, fade-free performance in all conditions

BILSTEIN B8 5160

Bilstein B8 5160 remote reservoir shock absorbers are designed as a direct fit solution for lifted trucks and SUVs. The remote reservoir will offer increased cooling capacity and wheel travel to optimize overall performance compared to a traditional shock absorber. These shock absorbers feature a monotube design for consistent fade free performance and utilize velocity sensitive digressive valve settings which are tuned for each specific application. Each shock absorber is fitted with a unique 360 degree swivel banjo hose fitting and an attractive billet reservoir mount where applicable providing a clean, low profile installation. B8 5160 remote reservoir shock absorbers will increase overall durability of your vehicle allowing you to conquer the harshest of off-road environments.

B8 5160

FEATURES & BENEFITS:

- 46mm monotube design ensures consistent, fade-free performance
- Self-adjusting deflective disc valving reacts
- immediately to surface changes enabling maximum vehicle control
- Remote reservoir increases shock oil capacity for greater heat dissipation
- Designed to easily install in vehicle's stock mounting locations
- Unique swivel banjo fitting on reservoir allows for 360° rotation
- Vehicle specific tuning
- Increases wheel travel
- Limited 2 year warranty
