

## Max-Restore<sup>®</sup> High Mileage Fuel System Cleaner

### Product Description

Royal Purple<sup>®</sup> Max-Restore<sup>®</sup> High Mileage Fuel Treatment is a highly concentrated fuel system cleaner formulated to address common issues in high-mileage engines, including reduced fuel economy, increased emissions, engine wear, and loss of performance. Its potent blend of Polyether Amine (PEA) and proprietary detergents rapidly removes stubborn deposits from fuel injectors, intake valves, and ports, while inhibiting the formation of new deposits. This helps regain lost power and fuel efficiency, promotes smoother idle and quicker starts, and supports improved emissions performance.

Designed for use in gasoline engines, Max-Restore<sup>®</sup> also incorporates a friction modifier to reduce engine wear and extend engine life, while stabilizing ethanol-blended fuels to help prevent fuel-related damage. By cleaning fuel injectors, Max-Restore<sup>®</sup> enhances fuel flow and overall engine performance.

Choose Max-Restore<sup>®</sup> to protect your high mileage vehicle & ensure optimal performance and engine cleanliness
